- \* Unused time dies.**
- \* Unused knowledge becomes a burden.**

**“ DIE Empty “**

One of the most beautiful book to read is "Die Empty" by Todd Henry. When the director asked the audience: **"Where is the richest land in the world ?"**

One audience said: **"Oil-rich Gulf States."** Another added: **"Diamond mines in Africa."**

Then the director said : **"No it is the Cemetery. Yes, it is the richest land in the world, because millions of people have departed, "they have died" and they carried many valuable ideas that did not come to light and benefited others. It is all in the cemetery where they are buried."**

**" Do not go to your grave and carry inside you the best that you have “**

**\* Always choose to Die Empty \***

**Dear Friends,**

In line with above, **after** working for more than 52 years in India & abroad for Engineering Innovations & earning appreciations, Rewards, Awards, name & fame, I decided to give back to Society & help the MSME industries in need. Accordingly I have offered my Hard earned experiences, Technical advice & Engineering services – **Free of any Charge** - specially to industries who suffered due to **Covid pandemic**.

Please contact me anytime with your Technical Problems :

Subject : **Reg. Free Technical Services provided by Sh. HARI OM VERMA**

Dear Sir,

With reference to the Letter dated 16.07.2021 circulated by **Mr. Hari Om Verma** - Managing Director of Ramani Precision Machines Pvt. Ltd. , for providing Free Technical Services to various Small Scale Industries in this region, I feel highly pleased to inform you & our Industrial Association that .....

After Covid-19, the operations of my Company were very bad & my Company was on verge of closing the business. But this offer from Mr. Verma came to me just like a God sent support.

In our factory we have really been benefitted from experience & Solutions provided by Mr. Verma, which proved to be highly economical & the results have been great. The performance of our working has been improved. The main issues which have been solved are as below:

- 1. We almost Re-started working of our machines & reached the desired level very fast with drastic addition of Efficient work tools developed by him in our own factory, resulting in near zero rejections.**
- 2. Many Designs, Tools, methods of working, Jigs & Quality Checks have been introduced and the same have increased the production with reduced input costs..**

Sir, we are really thankful to Mr. Verma for his selfless services & sharing of his bank of Innovative Engineering knowledge to us & that also getting everything done at our own factory, with very very economical costs.

We request the Association also to please ask Mr. Verma to kindly keep his campaign **ON** for the benefits of needy small units.

Best Regards

**S. S. GOINDI**  
Director

Subject : **ENGINEERING SERVICES & SOLUTIONS FOR MSME'S ( Free of Charge )**

Dear Shri Hari Om Verma,

This refers to your Letter dated 06.09.2021 regarding taking up the Technology Upgradation Projects & providing solutions to problems of industries. In your above letter to our Chamber, you have offered to provide Technical & Engineering Services & support to industry in this area totally Free of any Charges & specifically for MSME's who have been affected by COVID Pandemic.

My whole team of Haryana Chamber of Commerce & Industries joins with me in appreciating the noble gesture shown by you. I feel happy & confident that our member industries in this area shall definitely get benefitted with your Innovative ideas & solutions with the back up of your more than 52 years of hard earned experiences of Innovations in Engineering.

We will circulate your letter & offer of providing services **FREE OF ANY CHARGES** to our member industries. In the meantime I request you to please formulate the procedures for effective implementation of solutions.

Please accept our sincere thanks for your offer, which we consider a very special Service to Society & to our Nation as a whole. We hope that the needy companies will get benefitted.

Yours sincerely,

For **Haryana Chamber of Commerce & Industries**

**Subject : Regarding Free Technical Services provided by you at our factory.**

Dear Sir,

Allow me to begin by echoing the sentiments of Winston Churchill, who once remarked, "We make a living by what we get, but we make a life by what we give." In this light, your dedication to providing Free Technical Services to the small-scale industries of our region stands as a testament to the magnitude of your character and the depth of your generosity.

Your five-decade odyssey in the realm of engineering has culminated in a reservoir of knowledge and expertise, the likes of which are seldom encountered. Your interventions at our factory were indeed driven by genuine care and passion. The repercussions of your involvement have been transformative. These two focal points stand as beacons of your impact on our operations are:

**Unprecedented Product Quality:** Drawing inspiration from your meticulously crafted Control Systems, we have witnessed a renaissance in our product quality, mirroring a near-perfect state with minuscule rejections. In our journey towards excellence, it is on your robust shoulders that we have been fortunate to stand:

**Pinnacle of Productivity:** The metamorphosis of our jigs, fixtures, and tooling under your aegis has catalyzed our productivity, all while judiciously economizing input costs.

In profound appreciation and with the utmost respect, we extend our gratitude and look forward to the continuum of your benevolence.

Warm Regards,

For Priority Solutions  
  
Prop.

## **WORLD PEACE MISSION TRUST CHANDIGARH**

### **Activity 2011-2012**

#### **Introduction**

World Peace Mission Trust was started in 1991 by late Sh. Avtar Singh ji founder Managing Trustee and Sh. J. R. Shastri founder Secretary (now Joint Managing Trustee) to educate the children of the poorest of the poor labor working at construction sites. These children could not go to schools as their parents were moving from one place to another in search of work. In some cases both the parents were going to the work and elder children were looking after the younger ones. These children used to play in sand and dust near to their huts and were unhygienic and prone to bad habits. Their huts are nearer to the construction sites or in nearby villages. These comprised of one room of approximately 10'x10'size without any facility of toilet or bathroom and the entire family of 4 to 6 persons lives in that hut.

#### **Present activity**

**Geeta says to remove darkness, there is one way, to light a lamp.** The Trust started the lighting of lamp of education and is continuing its effort since 1991 to bring these children in the main stream and help them to become good citizens. The Trust is at present running seven Literacy Centers in and around Chandigarh and educating about 250 children. Ten percent of the children are changed every month due shifting of their parents from one place to another. Efforts are continued to be made to recruit new children on its rolls.

#### **Location and facilities at Literacy Centers**

These Literacy Centers are located nearer to their huts so that the children may not have to go to far off places. In these centers the smaller children also accompany the elder children when both the parents go for work. The wages per day of their parents are around Rs. 200 (\$4) for a labourer to Rs. 350 (\$7) for a mason or a carpenter. Their parents thus cannot provide them proper clothes.

The trust besides providing them with free education is providing books and stationery. They are also daily given biscuits and toffees to lure them to come to the centers. With the help of donors, the Trust has been able to provide them with clothing and warm pullovers. This has made a drastic change in the life of these children.

#### **Change of attitude**

In this year around 70 children whose parents did not shift to other places were admitted to regular schools.. Previously, the parents were not bothered about the education of their children, but now they take interest for admitting their children to regular schools. This is a major change in the attitude of the parents due to continued efforts of our organization. Previously the children were not bothered about washing of body and combing of hair, but, now they are more hygienic.

#### **Tailoring Centers**

In July 2010, two tailoring centers were started by the Trust in Sector-32D, Chandigarh and in village Jagatpura. In these centers around 45 girls/ladies are getting free training in tailoring. These centers have successfully given six months training to three batches. Most of the girls/ladies of earlier batches have started earning. The Centers have helped the weaker section of the society to stand on their feet by self-employment.

The Trust supplies cloth and other material for stitching uniforms of children. This helps the students to learn and the dresses of the girl children of literacy centers are stitched in this learning process.

#### **Computer Training Center**

In January, 2012, a Computer Training Center has been started in Sector 32-C, Chandigarh. In this center girls/ladies of poor families are given training in computer for one hour to each batch. At present there are nine computers and in three batches, 27 girls/ladies are getting training in basic course and data entries. This training will also help the weaker section to get employment.

Subject:- Padma Awards-2017

Sir,

Our organization is engaged in the education of poor children and empowerment of women by imparting them with skill development in tailoring near their huts. We understand that one of our active members, **Shri Hari Om Verma**, resident of House No. 3126, Sector 32-D, Chandigarh and Managing Director of Ramani Precision Machines (P) Ltd., Dera Bassi (Punjab), is applying for Padma Awards-2017.

Our organization feels happy in strongly recommending Shri Verma and wish him success to the top. He is a reputed donor and social activist for helping the cause of poor children and upliftment of poor women of our society. He is fully engaged in "Make in India" programme.

You are requested to kindly consider his application and approve the same. We will feel happy and obliged.

With best regards,

Yours faithfully,

**For World Peace Mission Trust**
