(Haryana)

Dear Mr. Verma,

On behalf of SUBROS Ltd., I would like to extend very warm thank you for all the hard work & efforts you have put in, during last 2 years of working with us.

All the equipments that you have designed, manufactured and supplied to us have been found to be as good as any other equipments we have imported from Japan. We are highly pleased having received the Compressor Testing Machines from your company, which are the most complex Machines and needing very high level of accuracy and repeatability.. The Quality and Workmanship has been found to be of highest international standards.

Further we have also received other complicated machines, such as Shoe Segregation Machine and Wire Winding Machine, designs of which are highly INNOVATIVE and unique in their class,

We all appreciate the hard work, sincere efforts & quickest possible service response that Ramani staff have put into our projects and we hope to have a long term relationship and business association with your company. My team of Senior Officers, Managers and Engineers join me in wishing you all the best in future and for the future growth of your company.

Signed

M.K.Puri  
Executive Vice President
