**Sub-Appreciation** for free supply of Smart PIR Panel of 20mm thickness with both side 80 micron Aluminum foils for Under deck Insulation to minimize heat with nice aesthetic look to create nice environment for our school.

Dear Sir,

This is to place on records that our school is having metal roof sheets and in summer it is very hot and in rainy season it makes noise and in both condition environment is not good for student but we are helpless .We came to know about Asawa Insulation Pre insulated Panels to minimize heat with nice aesthetic look and create good environment for which we approached Asawa Insulation and explained about our problem.

M/s Asawa Insulation Pvt Ltd study our problem and after that they have suggested to install under deck insulation and free supplied 109.02 sq. meters Smart PIR panel of 20mm thickness, with both side 80 micron Aluminum foils free of cost to solve our heat and sound problem with nice aesthetic look to our school with our satisfaction.

We appreciate their initiatives towards social upliftment and contribution to the society is commendable.

We wish them success in their business endeavors and aspire for many more such remarkable contributions in the years to come.

**Thanking you Asawa Insulation and their team.**

**Regards**

**Asif Ali**
